

Project Initialization and Planning Phase

Date	15 March 2024
Team ID	SWTID1719937289
Project Name	WCE Curated Colon Disease Classification using Deep Learning
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

WCE Curated Colon Disease Classification Using Deep Learning analysis colonoscopy images and patient records, this project aims to accurately classify various colon diseases, aiding in early detection, treatment planning, and improving patient outcomes. It assists healthcare professionals in diagnosing colon diseases. Enhances diagnostic accuracy, streamline treatment decisions, and improve patient care by providing timely and accurate disease classification.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	user	accurately classify various colon diseases	fail to obtain higher consistency and objectivity by human interpretation alone	Of large volumes of data and detect subtle patterns	unable to achieve intended goals
